

C-DISC Technologies Pvt Ltd is a construction technology startup revolutionizing the built environment with sustainable, modular, and digitally integrated solutions. Headquartered in Calicut, Kerala, we are incubated at IIT Kanpur and NIT Calicut, and recognized by the Kerala Startup Mission.

At CDISC, we specialize in the development of Modular Net Zero Energy (MNZE) Homes and the Pre-Engineered Nail (PEN) Foundation-a patented, eco-friendly foundation system that reduces construction time, cost, and environmental impact.

Our innovations are driven by cutting-edge technologies including AI, IoT, VR, and smart home integration, enabling energy-efficient and scalable construction suited for both rural and urban contexts.

With multiple national awards and global sustainability partnerships, C-DISC is committed to building a future where housing is affordable, resilient, and environmentally responsible

FOUNDATION

## KEY FEATURES

- » No Excavation Required - Protects top soil and ground water table
- » Rapid Installation - Foundation set up in under 1 day
- » Minimal Concrete Use - Reduces carbon footprint
- » Reusable & Relocatable - Ideal for temporary or mobile structures
- » Zero Curing Time - Enables faster project completion

## APPLICATIONS

- » Low-rise Commercial and Residential Buildings
- » Low Span Industrial Buildings
- » Farm Structures
- » Compound Walls and Fencing
- » Mass Housing and Shelters
- » Modular and Relocatable Homes
- » Resorts
- » Quick Temporary Shelters for Disaster Rehabilitation
- » Light Masts, Electrical, and Telephone Poles
- » Armed Forces and Military Infrastructure
